NOV 23 AM 9:18  
A. DOCKET ROOM

November 21, 2005

Mr. Charles Pickney, Jr., President  
Tennessee Wastewater Systems, Inc.  
7638 River Road Pike  
Nashville, Tennessee 37209-5733

RE: Tennessee Wastewater Systems, Inc.'s Petition to Amend Certificate of Public Convenience and Necessity to Provide Wastewater Utility Services (Docket No. 05-00293).

Dear Mr. Pickney:

Applicants for Certificates of Public Convenience and Necessity are required, by statute, to demonstrate their managerial, financial and technical abilities to provide the services for which they seek authority. To assist the Authority in its review of Tennessee Wastewater Systems, Inc.'s (TWS) amendment to its Certificate of Convenience and Necessity to provide wastewater utility services to a portion of Robertson County known as Cross Plains, you are requested to provide responses to the questions listed below. Please be precise and complete in your responses.

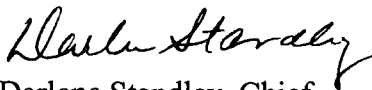

1. How are the residents of the City of Cross Plains currently being served for sewer / wastewater?
2. Please provide a Topographic map, 7.5-minute quadrangle format (available through TVA) plotting the exact location of the proposed treatment plant including the location of the drip cell lagoon treatment and the drip dispersal system for City # 1 and City # 2 and the 200 foot corridor joining them as well as the territory to be served by each. Based on the map provided, Staff should be able to determine the exact length of corridor. Include the number of residential, commercial and industrial customers the system will initially serve. Please provide as much information as is available to you.
3. What purpose does the corridor serve? Is the corridor necessary so that both areas of the city can be served by one treatment plant?
4. Will the B&P Investments property / development tap onto the system? Will B&P contribute to the cost of the development of the system or pay a tap fee of any kind?

5. Provide map and parcel numbers of the areas that the wastewater system proposes to serve, as well as the number of acres in each parcel. You stated in your Petition that there were too many to list accurately. Provide a list that is as complete and accurate as possible. The TRA will proceed with this docket using the information you provide.
6. Who will be the developer, the entity that will pay for construction of the system and transfer ownership of the system to TWS? Provide the name and address.
7. Provide a "Letter of Intent" from the developer of the system, indicating the intention to contract with TWS for the operation of the system and for TWS to have ownership of the system, once construction is complete.
8. Provide a copy of the plans and specs as provided to the Tennessee Department of Environment and Conservation ("TDEC").
9. Provide the date the application was submitted to TDEC and the TDEC office location receiving the application.
10. The letter from the Mayor of the City of Cross Plains included in the Petition stated that the request for services is contingent upon specific terms and conditions acceptable to both TWS and the City of Cross Plains. Have those terms and conditions been negotiated? If so, provide a copy of the negotiated contract. If not, provide a copy as soon as the contract is complete.

It is requested that this information be provided no later than 2:00 P.M. on Monday, December 5, 2005 and you reference Docket No. 05-00293 on the response. In accordance with TRA rules, submit either thirteen (13) written copies of your response or four (4) written copies and an electronic version.

Should you have any questions regarding this request, please contact Patsy Fulton at 615-741-2904 ext. 193.

Sincerely,

Darlene Standley, Chief  
Utilities Division
